

This course provides learners with an understanding of the need for and the possible barriers to international trade. Globalisation has had an enormous impact on trading with international partners but legislation and trade policy must be understood to take advantage of this.

### Benefits of attending this courses

On completion of this course, the learner will be able to analyse the fundamentals of international trade, assess the role of trade policy in facilitating or inhibiting international trade, analyse and apply the international purchasing process and apply the fundamentals of counter trade.

### Course Options

- Classroom Facilitated – can be conducted on-site. Talk to us about this option
- Public courses – check the latest schedule for dates
- Digital Blended Learning – Download your text books and attend revision sessions
- Self-study – Download your Text books and assignments and complete at your own pace
- Customised – all learning materials can be customised to include internal SOP's

### Who should attend and prerequisites

This course is intended for supply chain specialists who need to develop and implement international trade policies.

Learners should be competent in communication and mathematics, (NQF Level 4)
