Who should attend and pre-requisites?

This Learnership is aimed at Supply Chain Practitioners who have responsibilities for activities in the supply chain. This learnership also provides an excellent grounding for other personnel who need to understand how supply chain activities can affect their own role.

Learners should be competent at NQF level 4 in English Communication and Mathematics.

Previous experience with warehouse operations will assist the learner but is not a prerequisite.

Delivery Mechanism

Online learning – Students will gain access to the Supply Chain Smart online platform powered by BIZZCO. Learning materials are downloaded and you study at your own pace. Take quizzes and submit your assignments online.

Estimated Time

This course consists of 6 modules, 64 lessons and 12 assignments. You should allow at least 1-hour per lesson and an additional 3-4 hours per assignment.

SAQA Accreditation

This Logistics in the Supply Chain 74149c (NQF level 5) program is registered with TETA and has a total of 151 credits.

On completion of all 6 modules, the learner will receive an accredited certification:
74149b: National Certificate: Logistics in the Supply Chain
